

NAME

remove_MTdb.csh – for one moment tensor ID "mtid" database key, remove all moment tensor tables stored in sqlite3 database (see <https://sqlite.org/index.html>).

SYNOPSIS

remove_MTdb.csh {mtid} {sqlite3 database file}

or

remove_MTdb.csh all {sqlite3 database file}

DESCRIPTION

for one moment tensor ID "mtid" database key, remove all moment tensor tables loaded into the sqlite3 database file. File is usually stored in ./mtinv.version/data/mt.db

Tables: MT_ORIGIN_STAGE
MT_ORIGIN_STAGE
MOMENT_STAGE
FOCAL_PLANE_STAGE
MT_DATA_STAGE
MT_WAVEFORM_SEGMENT_STAGE
MT_FILTER_STAGE
MT_EARTHMODEL_STAGE
MT_PHASE_DATA_STAGE

OPTIONAL PARAMETERS

{mtid} moment tensor ID (database key), or "all" or "ALL" can be used to remove all rows.

{sqlite3 database file}

Define either on the command line argument or uses environmental variable
MT_DATABASE_FILE
